CNJ

Consciousness: A Neuroscience Journey

MARCH 25 | 10AM-6PM

VIMM - SALA SEMINARI

(VIA ORUS 2, BUILDING A, GROUND FLOOR)

DNS Dipartimento NeuroScienze

PADOVA neuroscience CENTER

AWARENET

VIMM

Consiglio Nazionale delle Ricerche

Join us to explore brain conscious perception. This seminar will follow sensory signals into conscious experience, bringing together insights from animal and human research using a variety of neuroscientific methods and data-analysis strategies.

Visit us for more details!

CNJ 2026

Consciousness: A Neuroscience Journey

Seminar Program

10:00 h - 10:30 h	**Registration and Welcome Coffee**
10:30 h - 10:40 h	**Pietro Avanzini** - *CNR - Institute of Neuroscience* AWARENET project overview
10:40 h - 11:00 h	**Bita Darabi** - *University of Padova* Human Consciousness: Where we are?
11:00 h - 11:20 h	**Emma Maria Tosato** - *University of Padova* The AWARENET Tool: predicting consciousness Alterations Based on the Functional Disconnectome
11:20 h - 11:40 h	**Andrea Pigorini** - *University of Milan* Brain Complexity
11:40 h - 12:00 h	**Ezequiel Mikulan** - *Università degli Studi di Milano* Unifying scalp and intracranial correlates of somatosensory awareness through simultaneous recordings in humans
12:00 h - 13:30 h	**Lunch Break**
13:30 h - 13:50 h	TBA
13:50 h - 14:10 h	**Ambra Ferrari** - *University of Trento* Sensory Perception
14:10 h - 14:30 h	**Livia Vignozzi** - *CNR - Institute of Neuroscience* Eyes on the task: shedding light on the hippocampus' role in visual perceptual learning
14:30 h - 14:50 h	**Light Coffee Break**
14:50 h - 15:10 h	**Catalina Campuzano** - *University of Padova* Animal consciousness: Where we are?
15:30 h - 15:50 h	**Ilaria Siviero** - *University of Verona* Can AI isolate the neural correlates of consciousness?
15:50 h - 16:10 h	**Andrea Zangrossi** - *University of Padova* Awareness and perception in forensic
16:10 h - 16:30 h	**Round Table with speakers**
16:30 h - 17:30 h	**Good Bye Aperitivo**
